GENERAL PERMIT
Village of Holland, Lucas County, Ohio

This permit is granted to:

Telephone No. _____

hereinafter call the permit holder. The permit is granted subject to all terms, conditions, restrictions printed below and on the reverse side and to any plans, sketches or special instructions attached.

LOCATION OF WORK:

DESCRIPTION OF WORK:

Work involves: Dewatering _____ Shoring _____ Pavement Open Cut _____ Tunneling _____ Boring/Jacking _____
Other (Describe) _____

Damage may occur to the: berm _____ guardrail _____ traffic signs _____ shoulder _____ curb _____
storm drainage _____ sidewalks _____ pavement _____ underdrains _____ no damage anticipated _____
Other (Describe) _____

The permit holder hereby agrees to indemnify and save harmless the Village of Holland and the members of Council individually and as a unit against any and all liability, loss, damages, cost expense which they or it may hereafter incur, suffer or be required to pay by reason of the work done under this permit. The permit holder shall notify the Village of Holland Engineer, two (2) working days in advance of commencing the work under this permit, unless a detour is necessary, where seven (7) calendar days are required.

This permit shall be in the possession of the permit holder's employee in charge of the work and shall be shown on request to any employee of the Village of Holland.

The permit holder hereby agrees to backfill all trenches under pavement and within 5 feet from the edge of pavement using granular material meeting the current O.D.O.T. specifications as modified by Lucas County (703.04, 703.10, 703.11) using compaction equipment and having an inspector present. Granular material meeting 2007 (or current) O. D. O. T. specifications as modified by Lucas County (maximum dry density exceeding 105lb./c.f. – 98% of standard proctor) may be used in place of items 703.04, 703.10, or 703.11 with prior approval from the Village of Holland. **If an inspector from the Village of Holland Engineer's office is not present, then either Item 411 – Stabilized Crushed Aggregate (berm stone) or Item 613 – Low Strength Mortar Backfill shall be used to backfill trenches.**

The permit holder also agrees to place a temporary wearing surface consisting of a 3" thickness of Item 405, Bituminous Cold Mix immediately upon the backfilling of the trench; and to maintain the road surface, which has been disturbed until such time as the permanent pavement can be replaced to the satisfaction of the Village Engineer. Permanent pavement replacement shall be as per Lucas County minimum standards (4" asphaltic concrete on 10" aggregate base) or as follows:

The permit holder also hereby agrees to furnish and maintain lights, signs, barricades and flaggers necessary for the protection of traffic at all times, day and night, during the work provided for under this permit, and to comply with all instructions given by the Village Engineer as to handling of traffic. All traffic control devices, flaggers, traffic maintenance methods and other operations to provide for protection of traffic shall conform to the requirements of the Ohio Department of Transportation Construction and Materials Specifications, Current Edition and the Ohio Department of Transportation, Manual of Uniform Traffic Control Devices for Streets and Highways, current edition, including all applicable revisions. Describe briefly and include a sketch of the traffic control and maintenance anticipated for this project.

The permit holder also hereby agrees to keep all pavements, drive areas, etc. clean within work and haul areas and to restore all disturbed areas to the condition that existed prior to the work to the satisfaction of the Village Engineer.

The permit holder agrees to comply with all the conditions, restrictions and regulations of the Village Engineer.

If the party or parties to whom this permit is issued does anything contrary to the orders of the Village Engineer and after due notice fails to correct such work, remove such structure or material as he may be ordered to remove, or place protective material, device or flaggers, the Village Engineer, may with or without further or additional notice, correct such work, remove such structure or material or place protective material, device or flaggers. The party or parties to whom this permit is issued shall reimburse the Village Engineer for any expense incurred in correcting the work, removing the structure or materials or making the construction area safe for the traveling public.

No revisions to the work described in this permit will be allowed without the prior approval of the Village Engineer.

This permit may at any time be revoked or annulled for non-performance of or noncompliance with any of the said conditions, restrictions and regulations thereof.

The permit holder agrees to perform said work described in accordance with the Ohio Department of Transportation's current editions of Construction and Material Specifications, this permit and all special conditions and attachments.

The permit holder agrees for a one-year period after the completion of this work, to guarantee the replacement or restoration of all items damaged directly or indirectly as a result of the work.

All work is subject to the approval and inspection of the Village Engineer.

All work done under this permit within the right of way limits shall be subject to removal or relocation by the permit holder at his expense at the direction of the Village Engineer in the event any public improvement shall require that said work be done. Said work is to be done in a timely fashion and any additional cost due to the delay of removal or relocation by the permit holder will be assessed to the permit holder.
