

UPCOMING ROAD PROJECT INFORMATION

As part of our continuing efforts to maintain the streets in the Village of Holland, McCord Road between Angola Road and Kipling Drive will be resurfaced beginning Monday, July 22. The project has been awarded to Helms & Sons Excavating from Findlay, OH. The project will include resurfacing, pavement repairs, curb ramp replacement and pavement markings. The project will also include removal of the existing 4' wide walk adjacent to the Strawberry Acres Park and replacing it with a 6' wide asphalt path. The project will start with the removal and replacement of the existing sidewalk, then move to the resurfacing of the outside lanes of McCord Road, then to the interior lanes of McCord.

Barring unforeseen circumstances, traffic will be maintained with at least one lane in each direction during the entire project. Because of the work on the sidewalk/path, the entrance to the Lodge at Strawberry Acres will be closed from Monday, July 22 through Thursday, July 25. The entire project is expected to be completed by August 31.

If you have questions or concerns, please contact Bob Bethel, Holland Village Administrator, at (419) 865-7104.
