SUMMER SERIES 2025

The April 8, 2024 Total Eclipse of the Sun provided Springfield Township's Trustees the opportunity to expand the commitment made to provide residents and guests with events/activities to highlight the community's amenities. Township Trustees' President Andy Glenn commented, "I think we surprised a lot of people with the number and variety of events created around the eclipse. We offered 17 different ways, beginning in January and continuing through the actual eclipse, for residents and guests to become informed, excited, and entertained!"

After the eclipse, he continued, "We saw that our community was anxious for more, so we enhanced our already successful Freedom Celebration, added the popular Wicked Wheels Car Fest and ended the season with A Night on the Township! The Township was able to do so much because we secured sponsors and volunteers who offered funds and talents. We think we're on to something special, and plan to keep-up the momentum through the 2025 summer months!" Check out the 2025 plans:
